PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience crafting scalable web applications using React, Next.js, and TypeScript. Proven ability to optimize performance and user experience across modern, responsive UIs. Strong advocate for Agile workflows, CI/CD automation, and rapid iteration in cross-functional teams.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML, CSS, Go, Scala

Frameworks: React, Next.js

Tools & Platforms: GitHub, AWS, CI/CD, Git, AWS

Practices: Agile, Testing, CI/CD, Responsive Design, Continuous Integration

WORK EXPERIENCE

Founder – Auviel Nov 2024 - Present

- Built and deployed custom websites and full-stack web apps for 10+ clients using React, Next.js, and Supabase
- Led end-to-end product development, from design systems to backend API integration
- Delivered mobile-first, SEO-optimized solutions, boosting client engagement and performance metrics

Frontend Developer - Naija Jollof Mar 2024 - Mar 2024

- Maintained and enhanced a multilingual restaurant platform with seasonal features and responsive layouts
- Implemented accessibility features to meet WCAG AA compliance standards
- Developed reusable UI components, improving development velocity by 30%

Junior Developer - Rareplus Pharmaceuticals Sep 2021 - Sep 2023

- Maintained and optimized internal tools for inventory and consultation management
- Performed bug fixes, UI updates, and integrated product listing modules
- Supported legacy systems while contributing to feature enhancements and performance tuning

IT Support Assistant – Our Lady of Lourdes Hospital. Jan 2020 - Aug 2021

- Installed and maintained IT infrastructure across departments, including EMR systems
- Troubleshoot network and hardware issues, supporting day-to-day clinical operations
- Ensured security compliance and up-time for mission-critical workstations and printers

SELECTED PROJECTS

GeoEvent Ongoing

- Developed geolocation event aggregation system using React and Node.js, improving real-time data processing
- Integrated Google Maps API for location visualization, enhancing user experience
- Implemented mobile-first design principles for optimal user engagement

Creator & Developer - ImageMark Ongoing

- Designed and developed image watermarking application with React and Canvas API, ensuring data security
- Implemented advanced positioning algorithms for precise watermark placement
- Enhanced user experience through intuitive UI/UX design

EDUCATION

Ontario College Diploma, Computer Programming - 2025

Conestoga College - Waterloo, ON

- GPA: 3.92 (High Distinction)
- Courses: Web Development, OOP, UI/UX Design, Data Structures
- Awards: Best Final Year Project, Tech Showcase 2025, Best of Program, Capstone Project Award

Bachelor of Science, Computer and Robotics Education - 2023

University of Nigeria, Nsukka – Enugu State, Nigeria

- Specialized in robotics systems, embedded computing, and automation logic
- Completed advanced coursework in microcontrollers, software engineering, and educational technologies
- Delivered a final year project on smart classroom automation using Arduino and web technologies
