PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience crafting scalable web applications using React, Next.js, and TypeScript. Proven ability to optimize performance and user experience across modern, responsive UIs. Strong advocate for Agile workflows, CI/CD automation, and rapid iteration in cross-functional teams.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS, Go, Scala, Java, C#, Kotlin, SQL
- **Frameworks:** React, Next.js, Node.js, Express, Tailwind CSS, Canvas API, Flutter, .NET Core
- **Mobile & Cross Platform:** Flutter, Kotlin, React Native
- **Tools & Platforms:** GitHub, AWS, CI/CD, Git, Docker, Vercel, Firebase, Azure DevOps, Jira, Postman, VS Code
- **Practices:** Agile, RESTful APIs, Responsive Design, Continuous Integration, Mobile-first Design, WCAG Accessibility

CERTIFICATIONS

- Meta Front-End Developer Specialization - Coursera (2025)
- AWS Certified Cloud Practitioner– AWS Skill Builder (2025)
- Scrum Foundations Certification – Scrum Alliance (2025)
- Database Foundations (SQL & NoSQL) – Conestoga College (2024)

PROFESSIONAL EXPERIENCE

Naija Jollof

Jul 2024 - Jul 2025

Software Developer Intern

- Maintained and enhanced a multilingual restaurant platform with seasonal features and responsive layouts
- Enhanced user experience for all users by implementing advanced accessibility features with React to achieve WCAG AA compliance standards.
- Developed an extensive library of reusable UI components using React, increasing development speed by 30% and enhancing team productivity.

Cowrywise

May 2024 - Jul 2024

Contract Frontend Developer

- Developed investment landing pages with Next.js, boosting user engagement and sign-up rates by optimizing for conversions through strategic design and functionality.
- Implemented API-based profile settings integration with Google Analytics, significantly improving user personalization and data insights.
- Collaborated with product designers and led release QA, resulting in high-quality product launches and increased user satisfaction.

Flutterwave

Apr 2024 - May 2024

Contract Frontend Developer

- Refactored role-based form logic and UI components on merchant dashboard
- Reduced user error rate by 22% post-release with better validation and feedback
- Collaborated with senior developers on staged deployments, resulting in a 20% increase in deployment efficiency and enhanced knowledge sharing among team members.

Rareplus Pharmaceuticals

Apr 2023 - Apr 2024

Junior Software Developer

- Revamped internal inventory and consultation management tools using Azure DevOps, increasing operational efficiency by 25% and significantly reducing downtime.
- Resolved software bugs and updated UI with Flutter, incorporating product listing modules to improve user experience and optimize system efficiency.
- Enhanced system reliability by supporting legacy systems and delivering feature improvements and performance optimizations using GitHub and Jira.

Paystack

Nov 2022 - Feb 2023

Frontend Developer Intern

- Enhanced the React component library for the merchant dashboard, significantly improving user interface consistency and boosting developer efficiency by streamlining component integration.
- Implemented state-driven UI behaviors and reusable input modules, enhancing application responsiveness, code maintainability, and overall user experience.
- Joined accessibility working group focused on keyboard nav and ARIA compliance

Interswitch Group

Jun 2022 - Sep 2022

Software Developer Intern

- Redesigned UI elements for a payment reconciliation tool using JavaScript and Chart.js, boosting user efficiency and improving data visualization.
- Worked with QA and backend teams to deploy small features, enhancing integration and improving system performance.
- Engaged in sprint rituals and bug triaging, enhancing team efficiency and gaining experience in fintech software teams and agile methodologies.

EDUCATION

Conestoga College
Ontario College Diploma, Computer Programming

- **GPA:** 3.92 (High Distinction)
- **Achievements:** Best Final Year Project, Tech Showcase 2025, Tech Showcase Winner, Capstone Project Award
- **Coursework:** Web Development, OOP, UI/UX Design, Data Structures

Jan 2024 - Apr 2025
Waterloo, ON

Imo State University
Bachelor of Science – Computer Science

- **Achievements:** Final Year Project – Smart Classroom Automation using Arduino + Web Interface
- **Coursework:** Software Engineering, Data Structures, Algorithms, Database Systems, Networking, Java, C#

Sep 2020 - Sep 2024
Owerri, Imo State, Nigeria

SELECTED PROJECTS

GeoEvent

- Developed geolocation event aggregation system using React and Node.js, improving real-time data processing
- Integrated Google Maps API for location visualization, enhancing user experience
- Implemented mobile-first design principles for optimal user engagement

AI Resume Parser

- Built a web app that parses resumes (PDF/Docx), extracts skills/roles, and matches them against job descriptions
- Used OpenAI’s GPT API to generate improved bullet points and summaries tailored to target roles
- Integrated user authentication and resume save history using Supabase
- Added drag-and-drop upload, job description paste field, and GPT-powered feedback system
- Designed UI to be recruiter-friendly with keyword highlighting and instant improvement suggestions

ImageMark

- Designed and developed image watermarking application with React and Canvas API, ensuring data security
- Implemented advanced positioning algorithms for precise watermark placement
- Enhanced user experience through intuitive UI/UX design

VOLUNTEER EXPERIENCE

SpurHacks
Volunteer

- Assisted event organizers with setup, participant onboarding, and team coordination
- Supported beginner participants with GitHub setup and debugging
- Helped with judging logistics and technical Q&A on Day 2

Jun 2025

EasyA AI Hackathon
Volunteer

- Supported event participants with setup, technical onboarding, and resource navigation
- Assisted beginner teams with prompt design, Supabase integration, and deployment troubleshooting
- Helped judges collect final submissions and facilitated demo scheduling
- Collaborated with organizers to ensure smooth event flow across the 24-hour build sprint

Apr 2025

Tribe Network
Volunteer Frontend Intern

- Assisted with layout fixes, dark mode toggle, and dashboard bug clean-up
- Contributed during hackathon season and supported junior dev onboarding

Dec 2024

AWARDS

- **Best Final Year Project – Tech Showcase 2025:** Awarded for GeoEvent, a real-time event aggregation platform integrating Google Maps and Firebase. Recognized for innovation, user experience, and real-world applicability.
- **Capstone Project Award – Computer Programming Diploma:** Selected as one of the top final capstone submissions in the program for full-stack design, API integration, and mobile responsiveness.
- **Hack the North 2024 – Honorable Mention:** Team was recognized during final demos for user-centric AI tool built with OpenAI, Supabase, and Tailwind. Positive feedback from judges on interface polish and practical use.
- **Dean’s List – 2024 & 2025 Academic Years:** Recognized for outstanding academic achievement in the Computer Programming diploma program (GPA: 3.92).
